The DIDSBURY PIONEER

AROUND THE TOWN

Mrs. V. Haag of Edmonton was a visitor in town for a few days at the week end.

Mrs. W. McIntyre was a visitor at Edmonton last week.

J. A. Quirk, a former proprietor of the Golden West Hotel, was in town on Tuesday on business.

W. Ricketts of Bankhead has been engaged by Mr. Hunsperger as assistant at the new postoffice.

Mr. James Cruickshank of Hartford, Wash., a Didsbury old-timer, was in town on business and visiting friends.

Frank Reek and Dr. W. G. Moore have bought out the south end livery barn from W. McIntyre.

The regular meeting of L. I. D. 311 will be held at Joe Bolton's, Harmattan, on Saturday morning at 10 o'clock.

Mrs. H. C. Forrest and son of Toronto, wife of Mr. Forrest, manager of the Golden West Hotel, arrived here on Monday.

The many friends of Mr. T. W. Cuncannon, manager of the Union Bank, will be glad to hear that he is recovering from sickness.

Mrs. Milner, daughter of B. A. St. Clair, is leaving on Sunday for Armstrong, where she will reside. Mr. Milner has already located at Armstrong.

Two rinks of curlers played a game with two rinks from Olds on Monday night on the local ice. Studer's rink played Roxburg's, score 8-10 in favor of Roxburg. Brusso's rink played Brower, score 11-12 in favor of Brower. The locals were defeated in both games.

Mr. Usher, the proprietor of the new Bijou Moving Picture Theatre on Osler street, opposite the Pioneer office, has been very busy this week with a staff of carpenters and decorators getting the new theatre into shape for his patrons, and no doubt his efforts to provide a safe place will meet with the success to which he is entitled.

Mr. H. Christensen of Tees, Alta., brother of Mrs. W. O. Bates, died at his home on Friday night last of neuralgia of the heart. Mr. Christensen was 31 years of age and besides his widow leaves three children to mourn his loss. The body was brought down to Didsbury for interment in the Didsbury cemetery on Tuesday afternoon.

A. Watts of the Herald-Western Printing and Lithographing Co. of Calgary, and an old-time chum of the editor's, spent Saturday in town looking into farm land possibilities. This was Mr. Watts' first visit to Didsbury and he was very favorably impressed with the town and complimented us on the school facilities and electric light plant as well as the general business-like appearance of the town. Come again, Art.

The big General Assembly of the Presbyterian church, which will be held in Toronto, will com-

WE are getting more every day. More what?

More satisfied coal customers, of course.

We have a few loads of good, dry Poplar stove wood, also some good 14 and 18 ft. poles on hand.

W. N. U. 944

Unrest in India Causing Alarm

Calcutta, India.—The ferment caused amongst Indian Moslems by the events in the near east far from abating, every day becomes more marked, and responsible Anglo-Indian journals all over the country are drawing attention to the serious nature of the position.

The Indian Mirror, a moderate Bengal newspaper, says that the situation is becoming most serious, as the Hindu extremists are taking advantage of the Moslem unrest to push their own revolutionary propaganda, and urges upon the government the advisability of prohibiting all meetings on the subject of the war. If this is not done, the Mirror is of the opinion that the ferment will follow the lines of the recent Hindu unrest. The attempt made some time ago by Aga Khan to calm the popular feeling has only resulted in, if anything, more meetings being held, at which he is denounced as not a true Moslem.

Reviewing the situation in a recent leading article, the Times of India says that it is time that the wise heads among the Moslem community interfered to give the community a lead, for the extravagant language which is now being employed, and its effects on the uninformed, are so mischievous that if a corrective is not applied the consequence must be most prejudicial to the Indian Moslems themselves.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will cease. Try it, and you will use no other preparation for a cold.

Kaiser to Visit Venice

Turin, Italy.—It is stated in the Venetian press that the German Emperor will pay a visit to Venice shortly, and that the visit will be the occasion of a meeting between the Kaiser and the King of Italy. From Italy the emperor will proceed on the Hohenzollern to Corfu.

Striking a Match

First Bachelor Maid—Miss Singleton is playing with fire again. Second Bachelor Maid—How is that? First Bachelor Maid—Going with an old flame of hers.

London.—A spaniel, which was trapped on a ledge 300 feet high, on the face of the Dover eastern cliffs, was rescued by a coastguard, who was lowered down the cliff by a rope.

Rush From Church to Picture Palace

London.—Despite vigorous protests by several ministers, the Middlebrough county magistrates granted a screening license for a new picture palace. One minister said there was a rush from churches to picture halls after evening service, which was unseemly.

Minard's Liniment Cures Burns, Etc.

Paris.—A new French Arctic expedition is now being organized under M. de Payer, an officer of reserve and a member of the Geographical Society. The expedition will take two aviators in the hope of realizing the dream of reaching the north pole by air.

TO KILL TIGERS IN LONDON

Wonderful Moving Picture Device to Test Skill of Rifle Shots

London, England.—It will soon be possible for any man or woman in the heart of London to shoot a tiger or fire at a motorcar travelling at the rate of fifty miles an hour without causing any bloodshed or running the risk of being summoned by the police. The new cinematograph target, which will be exhibited for the first time at the Olympia Cinematograph Show by the Life Targets Company, is one of the most wonderful inventions in the cinema world.

It is an adaptation of the ordinary living picture for purposes of marksmanship, and while doing away with the tedium of constantly firing at the same object, it provides the pleasure of chasing.

The moving picture is thrown on a travelling paper screen and as the figures dash past the rifleman takes aim and fires. As soon as he has sent his bullet through the screen the sound waves of the explosion are recorded in a telephone receiver connected with a system of control in the apparatus which immediately causes the picture to come to a standstill for a few seconds.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Declare Action Justified

Berlin.—The Nord Deutsche Allgemeine Zeitung, referring to Montenegro's interference with the Austrian steamer Skodra and the treatment of Catholic Albanians, says:

If Austria-Hungary has resolved to call Montenegro to account for such aggressions, she is acting for the assertion of her endangered rights and interests, which corresponds to the protection afforded by international law and the principles of European civilization. We have nothing from our announcement of an understanding between Austria and Russia with respect to the Albanian question, and on the other hand are convinced that a final agreement has been assured on the last point, hitherto controverted.

JUSTICE OF THE PEACE

HAD ULCERS & ECZEMA 4 YEARS ZAM-BUK HAS WORKED A CURE

Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up."

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse. "This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Such is the nature of the great cure which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., upon receipt of price.

Asphyxiation as Method of Arrest

Paris.—A weapon for the firing of asphyxiating fumes, devised after the recent siege of automobile bandits in their strongholds, was used for the first time, in the capture of a negro who had become suddenly mad and ran amuck in the Auteuil quarter, threatening everyone with a loaded revolver.

Detectives chased the man from room to room in a house where he had taken refuge, firing gas bombs as they went. The fugitive was finally cornered on the roof of the house in a state of semi-asphyxiation, quite powerless, and was transferred to a hospital.

Now is the merry season when the family has to retrench because the head thereof picked the loser twice.

Italy Denies any Action in Albania

Rome.—All reports regarding Italian preparations for military action in Albania or at other points on the opposite shore of the Adriatic are unfounded. So far as the Italian government knows, the question of Albania is practically solved as it has been confirmed that Austria has agreed that Jakova shall go to Serbia, which will satisfy the wishes of Russia, and Russia has agreed that Scutari shall remain part of Albania. Thus Russia, Austria and Italy are acting in accord, supported by the other powers.

Peking.—The young and pretty daughter of the vice governor of Kiang-tse province, China, has offered her hand and a dowry of \$5000 as first prize in a lottery organized by her in aid of the famine sufferers.

Rates and Ratcatching

London.—In five weeks the Colchester borough ratcatcher has killed 500 rats at an average cost to the rates of 3 pence per rat.

Pessimism is another name for indigestion.

The Soul of a Piano is the Action. Insist on the "OTTO HIGEL" Piano Action

A RACKING COUGH AND SORE THROAT CURED IN FIVE HOURS

Use the Proper Remedy and Colds and Sore Throat Disappear

"When I came home last evening," writes Mr. Thomas E. Jarvis, "I was all used up with cold and a racking cough. I felt sick all over. My wife rubbed my throat and chest every hour, and made me gargle with Nerville and water. I was soon warmed up and made comfortable with the Nerville, and the chilly sensation passed away. At 11 o'clock, after five hours' treatment, I was practically well. I therefore write you at once in order that it may be publicly known that Nerville will knock out a bad cold over night."

It is a fact that Nerville will ease up a tight chest, will relieve that sore, wheezy feeling, will knock out a cold in just a few hours. It penetrates deeply, draws out the congestion, cures promptly. Get a large family size bottle, 50c.; small size, 25c., at all storekeepers and druggists or The Catarrhose Co., Buffalo, N.Y.

Be happy while you may. Soon your wife will present you with a box of Christmas cigars just like the kind her brother smokes.

Why did none of the candidates think of working the endless chain system to get votes?

International Stock Food is Equally Good for Cows—Horses—Pigs

This great food is for all five stocks—to make cows give more milk—to keep the working horses in prime condition—to fatten pigs and keep the "winter" pigs strong and vigorous. We guarantee that it will make your cattle, calves, pigs, sheep and lambs grow rapidly, and keep them healthy and thriving all the time. Concrete is the best building material

A BROAD statement—Yet literally true. The aim of man from the beginning has been to make his building materials as nearly like natural stone as possible. The great labor required to quarry stone led him to seek various manufactured substitutes. The only reason he ever used wood was that it was easiest to get and most convenient to use. Wood is no longer easy to get. Like most building material, its cost is increasing at an alarming rate.

The cost of concrete is decreasing. So, from the standpoint of either service or economy, Concrete is the best building material. Canada's farmers are using more concrete, in proportion to their numbers, than the farmers of any other country. Why? Because they are being supplied with

Canada Cement —

a cement of the highest possible quality, which insures the success of their concrete work. The secret of concrete's popularity in Canada lies in the fact that while we have been advertising the use of concrete, we have also been producing, by scientific methods, a cement so uniformly high in quality that the concrete made with it gives the complete satisfaction our advertisements promised. Concrete would not have been in such universal use today, had an inferior grade of cement been supplied. Insist upon getting Canada Cement. It is your best assurance of thoroughly satisfactory results from your concrete work. There is a Canada Cement dealer in your neighborhood.

Without this label it is not "Canada" Cement. Write for our Free 160-page book "What The Farmer Can Do With Concrete"—No farmer can afford to be without a copy.

Misplaced pride rides a money-eating monster. Is your position sufficiently secure to warrant the spending of 20c a mile for automobile travel--when you may drive a Ford in comfort, security and record time at less than a tenth that sum?

Every third car is a Ford. Nearly 180,000 have been sold and delivered. New prices--runabout \$675--touring car \$750--delivery car \$775--town car \$1000--with all equipment f. o. b. Walkerville, Ont. Get particulars from G. N. Howe, agent, Didsbury, or the Ford Motor Co. of Canada, Limited, Michigan and Fourteenth Streets--or direct from Walkerville.

For Hair Health

If Rexall "93" Hair Tonic does not improve the health of your scalp and hair, we will pay for what you use during the trial.

We could not so strongly endorse Rexall "93" Hair Tonic and continue to sell it to the same people if it did not do all we claim. Should it not prove entirely satisfactory our customers would lose faith in us, we would lose their patronage, and our business would suffer.

If your hair is falling out or you suffer any scalp trouble, we believe Rexall "93" Hair Tonic will do more to eradicate the dandruff, give health to the scalp, stimulate new hair growth and prevent premature baldness than any other human agency.

We want you to make us prove this. We ask you to risk no money whatever. Buy a bottle of Rexall "93" Hair Tonic, use it according to directions for thirty days; then if you are not entirely satisfied, come and tell us and we will promptly hand back the money you paid us for it.

We won't ask you to sign anything, nor even to bring the bottle back. We won't obligate you in any way. We will take your mere word. Could anything be more fair? Could we do anything more to prove our belief in Rexall "93" Hair Tonic, and our honesty of purpose in recommending it to you?

Rexall "93" Hair Tonic is as pleasant to use as spring water and has but a faint, pleasing odor. It comes in two sizes of bottles, 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

H. W. CHAMBERS.

Didsbury The Pioneer Store Alberta There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended. H. E. OSMOND, Proprietor.

THE farm help question is again becoming a live one, several farmers having been in town this week enquiring around for help. One gentleman made a suggestion which we think is a very good one and that is that the town Council should make some arrangements where a farm help register could be kept and a notice put up at the station to direct those seeking employment where to go to see this register. As it is at present the farmer comes to town for help and although making as full enquiries as possible fails to get into touch with those who are looking for work, although there may be several around. The register would give the name of the farmer wanting such help, the amount of wages and the location of his home and telephone number with his postoffice address so that all information would be complete and the parties who are looking for work would be put in touch at once with them. There would be very little cost if any attached to the scheme and we think it is one in which the town Council help out the farmer to a great extent.

AT last the date of the Provincial elections have been set, and while we are somewhat in favor of short, sharp elections, we believe that the Sifton government have overstepped the mark in not allowing a little longer time to elapse between the prorogation of the house and the elections to allow of a full and free discussion of the pros and cons of Liberal rule. It looks as though, when the writs of the election was issued one hour after prorogation, that everything had been cut and dried not to allow any longer time than possible for a full and free discussion among the electorate, some of whom live in remote parts of the province and cannot under the circumstances hear any discussion at all because of the short time in which candidates have to go through their constituencies.

THE electors again have the privilege of voicing their sentiments in regard to the provincial government—in fact the people are the jury, before which the former members of the government side of the house are standing for trial, and therefore it behooves every one to get all the facts and evidence before them before giving their verdict. Is the financial standing of the province on a firm basis? The people would have been better satisfied if an independent commission consisting of members of both sides of the house had been appointed to look into this question. What about the A. & G. W. trouble for which the province is paying enormous sums in interest without having the use of the money borrowed? No solution of this question was brought forward before the late parliament prorogued, which would have given the people more confidence in the late government instead of leaving the matter in its present state which was solely caused by the men who have been in power since 1905. Are you satisfied with the way the credit of the province is being used for guaranteeing the bonds of railroads which so far have done very little actual work in constructing or operating branch railroads? Does the mix-up in temperance legislation appeal to you as being a shirking of a very important question in our social life instead of giving the people a chance to give their views on the matter? In the towns has the single tax law been a benefit or a curse because of the sudden application of the same instead of a gradual application whereby the financial conditions of many of the towns in Alberta are today in chaos, consequently causing stagnation in improvements and driving people to the larger centers instead of making markets for the farmers nearer their homes. These are some of the larger questions which you should think over and legislation which the late government have put through.

SOME of the politicians and the Liberal press are trying to attract the attention of those who are not familiar with Canadian government to the reciprocity question as a provincial issue. This is not so. The province has nothing whatever to do with the matter of reciprocity and wider markets as it is purely Dominion legislation and any person or paper which tries to bring this question up for the purpose of getting votes is deliberately deceiving those whose support they seek.

CHAPTER LII Lady Anne Speaks

Harry hesitated on the threshold. In the subterranean passage, at the moment when Edwin ran away from him, he had been seized by this same Stephen Jessop, white-haired and white-bearded as ever, but no longer paralysed and helpless. The vigor of youth seemed to be in the arms which bound Harry, and the voice which told him he was being attacked by Lady Anne's orders was that of a young man.

That living lie, Reuben had called Stephen; and Harry knew, as he slowly followed Lady Anne into the bedroom, that he had come to denounce the man as an imposter.

It was seven o'clock. Daylight lingered in the skies, but Stephen's room was darkened and three tall candles gave the sole illumination. Three persons appeared to be present. On the sofa lay the figure of a white-haired man with closed eyes; at the foot of the bed knelt Lady Clavel; and on the bed a man was resting with a woman's handkerchief across his face. Something in the very air taught Harry that there was another presence there, grim and terrible, the messenger that must come to all living things.

Stephen? he whispered to Lady Anne.

You can study his face, she answered aloud with a note of scorn in her voice.

Harry bent over the semblance of a man which lay on the sofa and understood at least a portion of the trick which had been played at Loders Abbey. The figure was a well-moulded model in wax, and within an open oak chest which stood near, he beheld a mass of other articles, many of which he recognized, and which threw a blinding light upon what had been, until that moment, mysterious.

Laborer's clothes, caps and neckerchiefs were heaped together with the well-cut garments of a fashionable gentleman, and white wigs, beards, and eyebrows, jostled coarse red hair, gold-rimmed eye-glasses and iron-grey moustaches.

The shock of dawning discovery made Harry feel physically sick. He almost recoiled as he turned from the contemplation of these objects to where Lady Anne stood by the head.

You must want to know what it all means, she said. Look!

She removed the handkerchief from

PIMPLES BROKE OUT AROUND CHIN

Burst and Formed Ugly Scabs.
Burning, then Itching. Had to
Go Without Shaving for Weeks.
Used Cuticura Soap and Ointment. Skin Perfectly Clear.

181 Close St., Toronto, Ont.—"I was troubled with facial eczema for nearly ten years. The first signs were pimples breaking out and then burning and forming nasty ugly scabs around my chin. Very often the sensation was that of burning, then itching so that I scratched the sore. I had to go without shaving for weeks at a time. I tried many patent remedies but did not find a permanent cure. Every spring and fall the disease appeared at its worst. I sometimes got rid of it for a few months, then it returned as bad as ever.

"About six months ago I received a sample of Cuticura Soap and Ointment and found great relief after a few applications. I purchased two boxes of Cuticura Ointment and some Cuticura Soap and used them as directed and now my skin is perfectly clear. I can shave with pleasure." (Signed) Wm. MacLean, May 27, 1912.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczemas and other distressing eruptions of skin and scalp, but no other emollients do so much for pimples, blackheads, red, rough skins, itching, scaly scalps, dandruff, dry, thin and falling hair, chapped hands and shapeless nails, nor do it so economically. A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient when all else has failed. Sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 43D, Boston, U. S. A.

A Live Agent Wanted

In every town and village in Western Canada. A good live man can make \$5,000 per year working in conjunction with us, in selling the choice Real Estate Investments we have to offer. In listing farm land for sale, working exchanges of farm land for city property, automobiles, etc. This is a chance of a life time for a hustler. Write for list of propositions. Address—

Scott, Hill & Co.,

22 Canada Life Building, Winnipeg, Man.

the dead face.

It was that of a man of apparently five-and-thirty years, of age, dark-skinned and small-featured, with thin, clean shaven cheeks, straight black eyebrows, and close-cut hair, prematurely streaked with grey.

Harry gazed upon the countenance long and intently before Lady Anne gently replaced the handkerchief.

He was my husband, she said. Your cousin, Roger Clavel.

Roger Clavel!

The near-do-well and assassin, whose body had been found by George Anning in the carp-pond by the monks' burying ground six years before, and interred at night in the Chapel of Our Lady of Mercy at Lyllyington Court; could it be possible that he had lived on until this day, showing himself to the world in the disguises of Stephen Jessop, Sammy the idiot, and Leopold Sarto?

Above all, could it be true that he had been Lady Anne's husband?

Half-stunned by the news, Harry followed Lady Anne mechanically into the drawing-room and sank upon a chair. After his recent experiences he felt hardly able to bear the strain, and for a moment he buried his face in his handaged hands.

He hurt you then? Lady Anne exclaimed. Yet he had sworn to his mother that he would not attack you again. And he had even trained my child to decoy you.

Your child?

Our child, Edwin Clavel. My folly and madness in marrying Roger when he came to me as a hunted criminal have been punished most of all in the attitude I have had to take towards my boy. I had to treat him harshly lest anyone should suspect the love I felt for him. I could only caress him when I stole into his room at night and spoke to him as a dream fairy with a veil over my face. The first time you came to Loders you caught me as I left him—

I remember well; you looked like an angel.

Like a mother thanking God for her child. But for him I should have gone mad. I tried, as you know, my best to make you leave Crayborne. I hated you for claiming that land which belonged to my husband and child. Yet, when Edwin told me on waking from his afternoon sleep that you had saved his life, I almost loved you. I hurried over to the farm to see you, and woke you by giving you a flower. Yet I dared not thank you.

What a fool I was, he murmured. I thought—thought you were beginning to like me.

Not in the way you wished. How often have I told you my life was over and done with, that romance and pleasure had gone out of it, and that all I could do was to grope among memories and shadows.

But now?

Now it will be different, for I can have my child to live with me. Maria knows or guesses everything, I think, although she never speaks. Susan is going to get married, and as for Granmer—

She stopped me as I came in, Harry said, and asked me to tell you she had known it all along.

I have often felt she knew. The Jessops have always been like poor relations to the Clavels. Even before Sir Alan's death, Lady Clavel lived much in the Abbey, and she knew, though Sir Alan did not, that Roger Clavel, when the hue and cry after him began, spent his time between the farm, where John Anning suggested to him the disguise of Sammy, and the room of bed-ridden old Stephen Jessop here. As a boy, Roger had discovered that subterranean passage, and he and the Anning brothers, who were devoted to him, put it into repair while he was being hunted by the police.

Tell me one thing, Anne? Harry asked as she paused. Did you—could you love this man?

In the gathering dusk he could not see her face. She bent her head lower and did not answer for some moments.

(To be Continued)

Ring Found After Twenty Years

Paris.—While walking along the beach at Trouville, a girl found a wedding ring on which was engraved "F. de Beaumont and Charlotte Laboulaye, 24th March, 1832." The ring belonged to the Marquise de Beaumont, who lost it at Trouville over twenty years ago while bathing.

Will Explore South

London.—Just before his departure for New York on his steamer Mauretania, Sir Ernest Shackleton announced that he intended to head a scientific expedition to the Antarctic. The Mauretania sailed from Southampton. Sir Ernest said he would visit several points in the United States and go to Ottawa.

CURE OF DRUNKARDS

A Woman Says Inebriates are Usually Fine Fellows—Should be Given Milk to Drink

London.—In an address on the curing of drunkards, Dr. Mary Murdoch, at a conference of the Yorkshire County union of the British Women's Temperance association which was held at Hull, said that drunkards as a rule were the very nicest of people, with wonderfully fine natures which made it difficult for them to resist temptation. Women whose husbands gave way to drink should give them a varied diet of milk, eggs, vegetables, poultry and fruit, and should avoid the grosser forms of butchers' meat. Cayenne pepper and sweets would temporarily put off the craving for alcohol.

Ladly cooked food, she said, was often to blame for drunkenness, and if the girls of the country learned to become good cooks there would be fewer drunkards. Smoking sometimes prevented the craving. The curing of alcoholism was more a matter of faith healing than anything else, and secret remedies advertised when tried were almost invariably followed by lapses. There was nothing like sensible hard work to prevent the recurrence of the craving when drunkards tried to cure themselves.

Naturalization Fee Reduced

London.—There is great satisfaction in the Jewish community at the announcement that the naturalization fee has been reduced from \$25 to \$15. The agitation for a lower fee has been going on since 1885, when Samuel Montagu urged upon the Liberal government the reduction of the fee to \$5. As soon as the Tory government returned to power, however, it raised the fee, but there has been a continuous agitation for the lower rate ever since.

FLY TO PIECE

The Effect of Tea and Coffee on High Organized People

"I have been a coffee user for years, and about two years ago got into a very serious condition of dyspepsia and indigestion. It seemed to me I would fly to pieces. I was so nervous that at the least noise I was distressed and, many times could not straighten myself up because of the pain."

Tea is just as injurious, because it contains caffeine, the same drug found in coffee.

"My physician told me I must not eat any heavy or strong food and ordered a diet, giving me some medicine. I followed directions carefully, but kept on using coffee and did not get any better."

"Last winter my husband, who was away on business, had Postum served to him in the family where he boarded. He liked it so well that when he came home he brought some with him. We began using it and I found it most excellent."

"While I drank it my stomach never bothered me in the least, and I got over my nervous troubles. When the Postum was gone we returned to coffee, then my stomach began to hurt me as before and the nervous conditions came on again."

"That showed me exactly what was the cause of the whole trouble, so I quit drinking coffee altogether and kept on using Postum. The old troubles left again and have never returned."

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Responsible

Mrs. Jipes, I think I have heard you say you have a cousin in the regular army. He is an officer, I presume?

Yes, he holds some responsible position, but I don't exactly know the nature of it. When he wrote to me last he said he was in the guardhouse—whatever that is.

A Pill That Lightens Life.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and loss and vexation attend him. To such a man Parmelee's Vegetable Pills offer relief. A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

Be happy while you may. Soon your wife will present you with a box of Christmas cigars just like the kind her brother smokes.

A woman can make the ordinary man into a pretty respectable citizen, but by the time she finishes the job he is about ready to die.

Scared

Do you believe that women should have anything to do with politics?

I certainly do.

You do?

She certainly should have both voice and vote.

Well, maybe the vote's all right, but I hope you don't want her to have any more voice than she has now, do you?

Minard's Liniment Relieves Neuralgia.

In the Cycle

He is so much behind the times that he will never catch up.

There is some advantage to that.

What is it?

His jokes are so old that they sound like new.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

There's a heap of fun in this world, and Jim Brown says he doesn't intend to miss any of it even if he has to knock off work occasionally.

I was cured of Acute Bronchitis by MINARD'S LINIMENT.

Bay of Islands, J. M. CAMPBELL.

I was cured of Facial Neuralgia by MINARD'S LINIMENT.

Springhill, N. S. WM. DANIELS.

I was cured of Chronic Rheumatism by MINARD'S LINIMENT.

There is no use in fretting," but some folks do it just for amusement.

PILES CURED IN 5 TO 14 DAYS
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Burning, Bleeding or Protruding Piles in 5 to 14 days. 50c.

The old fashioned woman will have none of the vacuum cleaners that obviate the necessity of house cleaning. What would life mean to her if her semi-annual debauch of housecleaning were denied her?

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Pessimism is another name for indigestion.

While travel broadens a man, it is not necessarily fattening.

The Cheerful Life

It is the right of everyone to live and enjoy the cheerful life. We owe it to ourselves and those who live with us to live the cheerful life. We cannot do so if ill health takes hold of us.

The wife, mother and daughter suffering from hot flashes, nervousness, headache, backache, dragging-down feeling, or any other weakness due to disorders or irregularities of the delicate female organs—is not only a burden to herself, but to her loved ones.

There is a remedy. Forty years experience has proven unmistakably that

DR. PIERCE'S Favorite Prescription

will restore health to weakened women. For 40 years it has survived revolutions, wars and nations. Sold by dealers in medicine in liquid or tablet form. Dr. Pierce's Favorite Prescription Tablets can be had of druggist or mailed on receipt of one-cent stamp—for \$1.00 or 50c. Address E. V. Pierce, M. D., Buffalo, N. Y.

DESOLATION IN OHIO

TOLL OF DEATH BELIEVED TO BE ENORMOUS

Estimated Dead is Placed at Three Thousand with Property Damaged to the Amount of One Hundred Million Dollars as Result of Floods and Fire.

Dayton.—Dayton is a city of the dead and dying, homeless and grief-stricken. Its tragic story will not be known until the last dead body has been taken from the flood that covers half the city and the last charred body from the ruins of fire that spread unchecked through the south of the city. The whole story will never be told, the heroism of men, martyrdom of women, mad hysteria, that seized some and caused them to jump into the flood to death, or the tortures and despair that gripped those who, imprisoned in their homes by water, waited in vain for help until advancing flames came and destroyed them.

Down the great Miami Valley, the richest farming section in Ohio, big farm houses, barns, stock and human bodies are scattered together on floods sweeping down stream. In several places the valley contracts to less than half a mile in width, and through these sections the raging torrent is sweeping with tremendous force tearing away all obstruction. Big hotels are crowded, department stores are flooded. Jail crowded with prisoners is inundated; fashionable churches are awash.

No tents nor other shelter could be secured for the sufferers. The most heartrending feature of the situation was the pitiable terror of the women and children. Many sat up and sobbed throughout the night, refusing to be relieved, while fathers who mixed wives and children cried their grief in a nerve-shaking way that strong men have of voicing sorrow. There was no one to give consolation because no one knows or will know for several days what the cost in lives is. Children are lost, having been parted from their mothers in the turmoil. Dayton is a lost city; it is completely separated from the rest of the world. Its isolation is almost primeval.

Columbus, Ohio.—Ohio is experiencing the worst floods in its history. Many estimate that the damage to property is the greatest since Galveston, Texas, was literally swept off the map.

So appalling and seemingly exaggerated were many reports from flooded cities and towns that they were disputed and in many instances wholly disregarded. Later reports from these sections, however, many times confirmed what was to be wild rumors. In other cases reports proved not to be correct. The various news agencies of the state are working under great difficulties in securing accurate report because of crippled wires.

Although reports of distress and disaster are coming from every section of the state, the greatest damage and loss of life from all reports, is at Dayton. The conditions there beggar description. While the business section of the city is practically all under water and the estimated loss of life is appalling, fires are adding to this by increasing death toll.

The lurid lights from burning buildings add horrors to the stricken city. Loss of life is estimated at from hundreds to thousands.

Cleveland, Ohio.—Late reports from stricken sections show the loss of life has been heavy, but so far no accurate estimate of the total number of killed is possible. That 500,000 persons have been rendered homeless and property damaged to the extent of half a billion dollars appears certain. Miami River valley, including the towns of Dayton, Hamilton and Piqua, is an 80-mile long strip of devastation. The Wabash river, bursting its banks at Peru, Ind., has brought havoc upon towns throughout its length.

Throughout other sections of both states smaller rivers have flooded towns and hamlets by scores, and passing eastward the rising of waters now threatens to visit similar destruction upon the vicinity of Pittsburg, Wheeling and other cities on the Ohio and Allegheny rivers.

Governor Cox made a requisition on the Federal War Department for fifty thousand tents, rations, medical supplies, surgeons, and nurses. He also sent special appeals to President Wilson and Secretary of War Garrison.

President Asks for Aid

Washington.—The following appeal for victims of the floods in the middle western state was issued by President Wilson.

Terrible floods in Ohio and Indiana have approached the proportions of a national calamity. The loss of life and the infinite suffering prompts me to issue an earnest appeal to all who are able, in however small a way, to assist the labors of the American Red Cross to send contributions to the Red Cross Society at Washington or to the local treasurers of the society. We should make this a common cause. The needs of these upon whom this sudden and appalling disaster has come, should quicken everyone capable of sympathy and compassion to give immediate aid to those who are laboring to rescue and relieve.

Italians Defeat Arabs

Tripoli.—The Italian forces recently defeated a band of Arabs. The Arab losses numbered 220 killed and many wounded. On the Italian side the casualties were 24 dead and 123 wounded.

CANADA PARTY TO JAPANESE TREATY

Premier Will Introduce Bill Making Exceptions to Terms with Great Britain

Ottawa.—The government has decided that Canada shall become a party to the treaty between Great Britain and Japan, which was concluded in 1911. It is termed a treaty of commerce and navigation, and was entered into on the understanding that it should not apply to any of the British Dominions except such as should within two years signify their adherence to it. The two years will expire on April 3 and the prime minister has given notice of the introduction of a bill in the commons giving Canada's adherence to the treaty. In brief, the British treaty places the subjects of either power upon terms of equality with native subjects in both countries as regards right of travel, residence, commerce, possession of property, immunity from extra taxation and reciprocal freedom of trade and commerce. It also provides that articles the produce of manufacture of either country shall not be subjected to higher duties other than levied upon similar articles from other foreign countries. And further that there shall be reciprocal freedom of shipping, except as regards coasting trade.

The Dominion Act, however, will make provision that nothing in the treaty shall affect the terms of the Canadian Immigration Act. Another exception is that the section of the British treaty providing for reciprocity in certain articles shall not apply to this country. Under this article of the treaty raw silks, copper, lacquered ware and other products of Japan are admitted free into the United Kingdom.

AGRICULTURE GROWTH

Greater Wheat Area and Crop Yield and Improvement in Mixed Farming Reported

Edmonton, Alta.—The report of the Alberta department of agriculture, covering the work of the department for 1912, was laid on the table in the legislature by the minister of agriculture, Hon. Duncan Marshall. The report shows that there has been great activity in all lines of the departmental work. Crop statistics are hardly complete, as final returns to be made by threshers have not all been received; it is estimated however that when all the returns are in they will show approximately 2,525,708 acres in crop, giving a total yield of all kinds of grain of 64,560,130 bushels. This is an increase of 793,000 acres and 13,625,311 bushels over 1911. To assist in gathering the harvest 8,000 harvesters were brought into the province, through the work of the department's officials at Winnipeg.

The high prices paid for milk and cream, while somewhat detrimental to creameries has given great incentive to dairymen, and many farmers are now milking more cows than formerly. The total value of cream and butter and cheese produced in the province during the year is estimated at \$1,250,000.

A rapidly growing interest in poultry raising is reported by the poultry superintendent. The markets, generally speaking, were good, and a marked improvement is noted in the quantity and quality of dressed poultry offered for sale.

Implement Firms are not Pleased

Edmonton, Alta.—The statement is made here that at least three big implement firms are considering the withdrawal of their agencies from Alberta on account of the passing of the Farm Machinery bill by the Alberta government. The local manager of the Rumely company has advised the official at the head office of this company that it will be no use retaining their agencies in Alberta in view of legislation that has been passed.

It is also stated that the Gould, Shepley and Moore company and the Ontario Wind Engine and Pump company are considering withdrawal from the province. Circulars have been sent out by the International Harvester company to all their agents with regard to the new legislation and branch managers are awaiting further instructions from the head officials.

Easterners Too Sure of Western Business

Calgary, Alta.—Alleging indifference of Eastern Canada manufacturers to the necessity of factory extensions in Western Canada, the directors of the Calgary Industrial bureau approved the report of their president and industrial commissioner advising concentration of efforts in the central and northwestern states. President Devenish and Commissioner Miller have just returned from an extensive eastern tour and claim that the Eastern Canada manufacturers feel too secure of the western business to appreciate the position of the prairie provinces with respect to local manufacturing requirements.

Heavy Snow in Rockies

Vancouver.—Four hundred and twenty-nine inches of snow have already fallen this winter at Glacier Station, the highest point in the Canadian Rockies, reached by the Canadian Pacific, whose statistics show a record snowfall all over British Columbia. In all of the winter of 1911-12 only 387 inches fell at Glacier and another 200 are likely to fall before the coming spring.

FALL OF ADRIANOPLE

VICTORY OF BALKAN ALLIES IS NOW COMPLETE

Shukri Pasha, Who Made a Gallant and Prolonged Defense of Adrianople, was Forced to Surrender to the Besiegers—Jealousy Among the Victors.

London.—Adrianople has fallen after one of the most stubborn defenses in the history of warfare. Shukri Pasha, the defender of Adrianople, who held the town for 153 days against great odds, which included, besides the investing armies, disease and famine, handed his sword to Gen. Savoff, the Bulgarian generalissimo, not however, before carrying out his stern threat to destroy the town rather than let it fall into the hands of the Bulgarians.

From all accounts the arsenals and all the stores and a great part of the town are in flames. It is also reported that Shukri Pasha had taken his own life, but this proved to be untrue, as after visiting all the fortifications and deciding that resistance was no longer possible, he sent word to Gen. Savoff, to whom he made submission, that he was burning the city.

Gen. Savoff has appointed a commandment of the city, who will take steps to maintain order. The Bulgarian and Serbian cavalry, which was the first to enter the town, will be utilized for this purpose.

The battle which preceded the capture of the fortress commenced Sunday night with a three-hour bombardment. The Turks replied with energy, but they were evidently saving their ammunition as the artillery duel soon ceased.

The besieging troops in the east advanced at double-quick under the glare of searchlights to attack the advanced works at Haslak. After a fierce defence, which lasted through Monday, the Turks retired from the light forward works and forts. Part of these engaged in covering the retreat of their comrades, were cut off by the Bulgarians and captured.

After moving forward a short distance towards the chief bulwark or fortress the Bulgarians rested. It was then observed that although great progress has been made in the east, the fighting in other sections had resulted in enormous losses to the Bulgarians, with small gain of ground. Nevertheless the attack was renewed, and on Tuesday and Wednesday the important forts composing the inner ring of the defences were taken after hard fighting.

Those accounts of the battle which have come from Bulgarian sources make no mention of the Servians, of whom there seems to have been a good deal of jealousy among King Ferdinand's troops.

The Servians, on the other hand, who have only issued a brief report of the capture, divide the credit with their allies and are apparently not quite so eager to hide their heavy losses. According to a despatch received at Belgrade from Mustafa Pasha, the sacrifices were very heavy. The Serbian thirteenth and the Bulgarian eighteenth regiments were blown up by mines, and many other regiments sustained great losses. All the reserve hospitals have been put in order to receive thousands of wounded.

OTTAWANS TO GO NORTH

Representatives of Various Governmental Departments Will go to the Arctic

Ottawa.—A number of Ottawans will accompany V. S. Steffansson, the Canadian explorer, who will shortly leave on a two-years trip to the north. They will represent the interests of various government departments which may be interested in the results of the expedition, such as the mines, interior and probably marine departments. The names, however, have not yet been announced.

Steffansson himself is now away on a trip to the Old Country, but will return in April. His cases of specimens arrived at the museum lately and are now being arranged.

Good Progress on Kamloops Lines

Kamloops, B.C.—Engineers' reports of railway construction work now going forward in this section of the West indicate the connecting up of many important branch lines and the opening of extensive areas of new territory during the coming season. A gap of only about 50 miles now separates the construction gangs working north from Kamloops and from Yellowhead Pass on the C.N.R. Track-laying along the North Thompson river north from Kamloops is also making rapid progress. On the Kamloops and Port Mann line the grading and bridge work is going forward steadily; and tunnel work between Kamloops and New Westminster lacks but about 5 per cent. of completion.

Will Protect Fur Seals

Washington.—To carry out the treaty for the protection of fur seals in the North Pacific, President Wilson ordered the revenue cutters Manning, Unalga, Tahoma, Bear and Thetis to patrol the Behring sea from April 15 to Sept. 30.

No Reception for Duke and Duchess

London.—No official reception will be given their Royal Highnesses, the Duke and Duchess of Connaught, at either Liverpool or London on their arrival. The Duke himself desires this, being at home merely on leave.

WESTERN CANADA'S ANNUAL SPRING MUSICAL FESTIVAL

Winnipeg and Western Canada's Annual Spring Musical Festival is near at hand, the dates being Monday, Tuesday, Wednesday, April 7, 8, 9, and the place as usual, the Walker Theatre, Winnipeg, as this is the only structure in Western Canada sufficiently large and properly equipped for such large audiences as always assemble for this big musical event, also with such splendid stage accommodation for the musicians and such perfect acoustics.

The musical festival will again be under the auspices of the Winnipeg Oratorio Society and the famous Minneapolis Symphony Orchestra, under the leadership of Emil Oberhoffer, will be the principle feature. Four prominent metropolitan vocal soloists, and three equally well-known and gifted instrumental soloists, will participate. There will be daily matinee concerts, in addition to the three night concerts.

The Minneapolis Symphony Orchestra will render many numbers entirely new to the West, also some of the very best symphonies and operatic selections. The Winnipeg Oratorio Society will be heard in fine selections, and the school children of the city will again take part.

Emil Oberhoffer, conductor, Minneapolis Symphony Orchestra at the Walker Theatre, April 7, 8, 9. Matinees Daily.

The sale of coupon books and exchange tickets will begin Monday, March 31st. Full information regarding these may be obtained by addressing C. P. Walker, Walker Theatre, or J. J. Moncrieff, The Tribune, Winnipeg. Mail orders will be filled on Wednesday, April 2nd. The general sale will open Thursday, April 3rd, at 10 a.m.

No musician or lover of music can afford to miss this important musical season, as it will prove a liberal education.

Another big musical event which will follow close upon it will be the recital at the Walker Theatre on April 14th by John McCormack, the world-famous Irish tenor. Mr. McCormack has a voice of wondrous sweetness, and he sings the beautiful Irish, English and Scotch ballads as no other singer of this country has yet done. He has perfect expression and great personal and vocal magnetism. To hear him sing such songs as "Mother Machree," "Kathleen Maivorneen," "I Hear You Calling," is to store away in your memory a golden voice to live there forever in joy. Monday evening, April 14th, is the date of his recital at the Walker Theatre, Winnipeg.

INTEREST IN LIVE STOCK

Farmers of the West Are Alive to Possibilities in Live Stock

Ottawa.—The people of western Canada are displaying great enterprise in the way they are providing accommodation for winter fat stock shows, says J. H. Grisdale, director of Dominion experimental farms, who has returned home after visiting the Fat Stock show at Brandon, Man. The new pavilion at Brandon is, he says, easily the finest of its kind in Canada, but according to the plans and specifications for buildings of the same kind at several other points, Brandon will have to give up first place.

Mr. Grisdale says that another of the healthful signs of progress in the west is the manner in which live-stock is attracting attention. The farmers of the west have come to see that it pays to keep live stock, and especially dairy cattle and sheep. Beef raising is not giving as much profit as the farmers would like, but dairying and the keeping of sheep appear to give returns that encourage the farmers. The people of the western cities, too are taking a great interest in agriculture and the Canadian clubs of a number of the cities endeavor to secure men prominently identified with progressive agriculture to address them at various meetings.

Reservists May Rejoin Navy

London.—The admiralty has announced its intention to allow pensioners and fleet reservists to re-enter the navy survey ships in home waters. In naval circles it is believed that this move indicates the difficulty which is being experienced in England in manning the fleet.

THE SUNDAY SCHOOL

LESSON 1.—SECOND QUARTER, FOR APRIL 6, 1913

Text of the Lesson, Gen. xxvii, 22-34. Memory Verses, 33, 34—Golden Text Isa. xxx, 18.—Commentary Prepared by Rev. D. M. Stearns

Seven other sons, including Ishmael, are recorded as having been born to Abraham by his secondary wives, but to Isaac he gave all his possessions (xxv, 1, 2, 5) and sent the others away unto the east country. Abraham lived 175 years, and when he died Isaac and Ishmael laid his body beside that of Sarah in the cave of Machpelah (xxv, 7-10). While he lived he looked for the city which hath foundations whose builder and maker is God (Heb. xi, 10, 16), and he is still waiting for it and for the complete fulfillment of the promises made to him as heir of the world (Rom. iv, 13). Time is long, to us, but not to Him to whom a thousand years are but as yesterday when it is past (Ps. xc, 4) and as a watch in the night.

It is useful to see Isaac dwelling by the well Lahai-roi, the well of Him that liveth and seeth me (xxv, 11; xvi, 14, margin). He was forty years old when he married Rebekah, and he was sixty when the twins Jacob and Esau were born. It forebodes trouble to read that Isaac loved Esau, but Rebekah loved Jacob (xxv, 26-28), and the reason given for Isaac's love for Esau does sound very earthly.

Futures were not any more real to Esau than they are to multitudes today. A mess of pottage was more to him as a hungry man than his birthright (xxv, 29-34), and for this he is spoken of as a profane person, or, according to Weymouth, ungodly (Heb. xii, 16). Think of the profanity bounding everywhere because the god of this world is blinding so many eyes to the realities of the future kingdom and glory.

In chapter xxvi we read of Isaac's failure on the same line on which his father had failed twice, in calling his wife his sister to save his own life (Gen. xii and xx). In xxvi, 4, we have the star promise confirmed to Isaac, and in verses 12-16 we see how greatly the Lord blessed him and how very rich the blessing of the Lord makes one.

A beautiful incident is related in verses 17 to 33 as to how yielding instead of strife makes manifest the life of Christ in us. The Philistines had filled up some of Abraham's wells, Isaac reopened one, and then they claimed it as theirs, and he let them have it. When he reopened another a third for some reason they did not strive for that. Later they came to him to make a covenant with him and gave as their reason for desiring it. "We saw certainly that the Lord was with thee" (verse 28). Had he contended with them and insisted on keeping the wells, which would have been quite right in the eyes of the world, they would have seen Isaac and not the Lord, but he had learned the lesson of rather taking wrong and suffering himself to be defrauded (1 Cor. vi, 7). It is most interesting to note that the same day his servants in digging a well found water (xxvi, 32).

It is indeed sad to have to turn from such a beautiful incident to the lesson for today, which is a record of awful deceit and lying and, worst of all, a mother putting her son up to it and calling down the consequences upon her own head (xxvii, 13). Her aim was to bring the father's blessing upon the son whom she loved, but if she had only believed God and left the matter in His hands He would not have failed to keep His word, for He had told her before the boys were born that the elder should serve the younger (chapter xxv, 23). There is everywhere today a tendency to help the Lord to do what He has no thought of doing, and that is to win the world to Himself in this age, with the devil still doing his devilish work.

There is also such a lack of confidence in God and His plan for His kingdom that many religious people try to work out their own plan, thinking thus to help God. "The devil hates the love of God, the patience of God, the purpose of God, and is as busy with many of the people of God as he was with Rebekah that day, but they are blinded and concealed" (11 Cor. iv, 3, 4; Rom. xi, 25). This record of Rebekah makes us think of another mother who was her son's counselor to do wickedly (11 Chron. xxii, 3), but one would hate to associate Rebekah with such an Abimelech, though it is true of all that the heart is deceitful and desperately wicked and the carnal mind is enmity against God (Jer. xvii, 9; Rom. viii, 7). In some of us have not developed the same degree of iniquity as others it is only the grace of God that has kept us. Note the lie upon lie of this story: "I am Esau, thy firstborn. The Lord thy God brought it to me. I am thy very son, Esau" (verses 19, 20, 24).

But he was found out even as it is written: Be sure your sin will find you out. (Num. xxxii, 23), though these words were used in a wholly different sense when uttered or written. We do well to remember that God shall bring every work into judgment, with every secret thing, whether it be good or whether it be evil. (Eccl. xii, 14). This may have been the first but certainly not the last story of kid glove deceit on record.

London.—A spaniel, which was trapped on a ledge 300 feet high, on the face of the Dover eastern cliffs, was rescued by a coastguard, who was lowered down the cliff by a rope.

Westcott News

Miss Harriet and Miss Violet Hunsperger attended the convention at Edmonton last week.

Miss Maud McIntyre was a guest at Edna Vipond's for a few days last week.

Wilton Vipond of Calgary and a friend from Edmonton spent the Easter holidays with Wilton's parents at Westcott.

R. Frakes and Albert Russell returned from the east the other day. Ab. took up some land there and Mr. Frakes took leave of this country and is going to make his home in the States.

Mr. and Mrs. Frank Colwell of Red Deer spent Easter with Frank's parents.

S. R. Singer and family are moving this week to their new home at Neapolis. Although sorry to lose them we wish them every success in their new home.

A meeting of the United Farmers of Alberta will be held in Rugby school house on Monday evening, April 7th, to commence promptly at 8 p.m. Business financial to be followed by a debate on co operation, at the end of which a committee is to be elected to attend Didsbury to meet representatives of the unions of Didsbury, Carstairs and the districts east. This is a very important meeting and all interested are requested to attend.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all dealers.

Why it Pays to Build Good Roads

(By H. W. Herridge, Stewartyn, Alta.)

First and foremost when you mention good roads your thoughts turn to hauling grain, hay, etc., and you think of the time you have packed a load on your back out of a liquid mixture of Alberta soil. Alberta soil will raise anything, and you take it from me, in a case like this it raises the wrath in a man to above the boiling point. After you eventually get on dry land once more and view the havoc that has been wrought, you sigh for the time when you will get roads "like those at home." But in this picture you have it in a nutshell—time is money, and every hole and rough place causes a loss of time and unnecessary wear and tear on horses and vehicles. Then the rough roads are the terror of a trip to town. Many a time have I come back, after rolling over the level prairie for twenty-five miles, with the same feeling you get when seasick, vainly hoping the boat would go down. Then is the time you are dead sure it would pay to have good roads.

Then the wagons. Although the manufacturers are a fine set of men, if they used a few less brads and more bolts we would not have to spend so much time repairing everything. The railway companies say it costs more to haul a ton of freight in the mountains than on the prairie on account of the grades, and the same applies to the farmer in building roads—cut off the hills and you can haul more and save money. Then the horses. No one will deny how they travel when they come to a level stretch, and you save time again. Then again, you will notice an advertisement where a man sells his farm "on the main road," and this is always a drawing card, and in many a case a man will realize \$5 an acre more than a man away back, so the good road pays in that case.

So, from this short article I have tried to prove what nobody has the least doubt of, "that good roads pay" in both pocket and mind.

Why He was Late

"What made you so late?"
"I met Smithson."
"Well, that is no reason why you should be an hour late getting home to supper."

"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."

"Did you tell him to take Chamberlain's Tablets?"

"Sure, that is what he needs. Sold by all dealers."

Some Facts

Before killing any more calves, or selling calves for slaughter, consider the following facts:

The number of calves slaughtered in the United States in the last decade has increased by 100 per cent. In 1911 there were 8,000,000 calves slaughtered at an average of 70 lbs. If they had been allowed to live one year they would have averaged 600 lbs., or a grand total of 4,800,000,000 lbs. of beef, instead of only 560,000,000 lbs. According to a conservative estimate, these 4,000,000,000 extra pounds of meat would furnish a city of 350,000 population with its total meat supply for over 50 years. In South America this danger has been recognized, and laws are in force providing a severe penalty for the slaughter of heifers or cows under six years of age. One can scarcely conceive the tremendous increase which would be affected in Alberta if the breeders prevented the slaughter of calves. Think over the calamity of a province like Alberta permitting New Zealand butter to be sold in large quantities throughout the province; then don't kill the calves.

It is a positive fact that on the average farm from 50 to 100 sheep will produce the largest returns, for the food consumed, of any living animal. About the only thing missing will be the weeds

LIBERAL-CONSERVATIVE MEETING

At the DIDSBURY OPERA HOUSE

Saturday, April 5th

at 8.30 p.m.

SPEAKERS:

H. S. PATTERSON,

G. B. SEXSMITH,

Liberal-Conservative Candidate for Didsbury Constituency

EDWARD MICHENER

Leader of the Liberal-Conservative Party

The important public questions of the day will be discussed.

EVERYBODY WELCOME

and rough feed, which would probably not be utilized otherwise. Yet we continue to make large importations from far-distant countries to supply our table with mutton.

We frequently say, "What's in a name." We can depend upon it, however, that the hog had to earn his title, and, before becoming known as "the mortgage-lifter," was the means of bringing happiness to many a home.

A few months ago a large commission firm purchased 75 carloads of eggs in a day, and yet did not have sufficient to supply their orders. Hundreds of thousands of good Alberta dollars are sent to eastern Canada and the United States each year for eggs and poultry. Oats at 20c, wheat at less than 50c, eggs selling at from 20c to 50c a dozen, and poultry from 16c to 25c per pound, there must be a handsome margin of profit in a country particularly adapted for the economical raising of poultry. If the farmers of Alberta would each keep from 50 to 200 hens, the money now sent out of the province would remove anxiety and want from many a home, and provide luxuries now considered out of the question. We should be supplying eggs and poultry in carloads to points outside of Alberta.

If every farmer in Alberta would become a mixed farmer and stock raiser as fast as his means would permit, the days of cheap grain would soon disappear, the productiveness of our farms would increase, and the tillers of the soil in Alberta would be the most prosperous and contented people in Canada.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sydney, Australia. This remedy is for sale by all dealers.

Cutworm In Alberta

Hon. Martin Burrell, minister of agriculture, is securing the services of E. H. Strickland, a noted British entomologist, to make an investigation into a serious outbreak of a new variety of cutworm which has invaded southern Alberta, and which last year destroyed from

thirty to forty thousand acres of grain as well as garden and root crops.

Mr. Strickland, who is joining the department of agriculture as permanent official, was trained at the South-eastern Agricultural College at Wye, Kent, under Prof. F. V. Theobald, the foremost economic entomologist in England. In addition to his English training, he has had American experience. In 1910 he was one of the two men selected by the Colonial office to take two years' training in the United States in entomologist work. He spent two years working under the direction of Dr. Howard, chief entomologist of the U. S. Department, and Prof. Wheeler, professor of entomology at Harvard University. He was offered the position of government entomologist for Ceylon, but decided to enter the Canadian entomological service. He expects to leave for Alberta to take up his work about April 10.

Morgan Dies

Rome, March 31.—J. P. Morgan, king of American financiers, and perhaps the greatest in the world, and the controlling force behind the organization of the monster United States steel company, capitalized at more than a billion dollars, died here today.

The direct cause of Mr. Morgan's death was exhaustion caused by the fact that he was unable to take any nourishment for several days past. The physicians explain that this was due to the lack of functional vitality in the nerve centres.

The Napoleon of American finance had been ill for some time, but it was not generally known that his condition was so extreme. Several months ago Mr. Morgan went on a tour of Egypt, and it was given out then that he was suffering from overwork and needed a rest. Alarming reports were circulated from time to time, but recently the financier returned to Rome apparently much improved in health.

Since then he had kept in seclusion and reports were issued from time to time that he was improving. Up to Saturday night Mr. Morgan's son-in-law, Mr. Herbert Satterlee, and the attending physicians made every effort to conceal Mr. Morgan's true condition.

Comfort Your Stomach

We pay for this treatment if it fails to promptly relieve indigestion and Dyspepsia.

Rezall Dyspepsia Tablets remedy stomach troubles because they contain the proper proportion of Pepsin and Bismuth and the necessary carminatives that help nature to supply the elements the stomachs of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Rezall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that they will keep indigestion from bothering you.

We know what Rezall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia, or to refund your money, if they fail to do so. Doesn't it stand to reason that we wouldn't assume this money risk were we not certain Rezall Dyspepsia Tablets will satisfy you? Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Rezall Dyspepsia Tablets in this community only at our store:

H. W. CHAMBERS,
Didsbury The General Store
There is a Rezall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rezall Remedy for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended.
The Rezall Store is America's Greatest Drug Store

Perhaps one reason why the fool killer is out of a job is because he suffers on it.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion." — Mrs.

HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial." — Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

W. N. U. 944

Buffaloes Change Habit
Capetown.—A Radclyffe Dugdale, lecturing at the Camera Club on his experiences in British East Africa, where he stalked game with the camera, said that a curious change had taken place in the habits of the African buffalo, which had become a nocturnal creature. It seemed possible he added, that this was a protective device, as the fly which carried rinderpest was diurnal.

He who has not done that which he ought not to have done has missed a lot of fun.

ANOTHER PROOF FROM THE WEST

THAT DODD'S KIDNEY PILLS ARE A NATURAL REMEDY

For Cases of Exhaustion and Nerve Weakness—How S. Jeremy Found Relief When He Cured His Kidneys.

Sniatyn, Alta., (Special).—That the natural remedy for exhaustion and nerve weakness is one that will give good circulation and pure blood carrying nutrition to all parts of the body, is again proved in the case of S. Jeremy, a well-known resident of this place.

"For over two years I suffered from attacks of exhaustion and nerve weakness," Mr. Jeremy states. "I tried many nerve foods and tonics but must admit that Dodd's Kidney Pills have benefited me more than anything else I ever used.

"I am more than grateful for what Dodd's Kidney Pills have done for me."

Nerve weakness and exhaustion are caused by impure blood. Impure blood is caused by diseased kidneys failing to strain the waste matter of the body out of the blood. The natural remedy is to cure the kidneys. Dodd's Kidney Pills have yet to find a case of kidney disease they cannot cure.

Disappointed
George has told me all the secrets of his past.
Mercy! What did you think of them?
I was awfully disappointed.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season.

Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the school, taxes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions, while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give you health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring weakness but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism, and other diseases due to bad blood. Miss Lillian Howe, Portland, Ont., says: "A little over a year ago I was in a very anaemic condition, suffering from most of the symptoms of that trouble. Often I spent sleepless nights, and felt as though I did not care whether I lived or not. In this condition I began taking Dr. Williams' Pink Pills, and after the use of ten or twelve boxes I was restored to the blessing of perfect health. I feel, therefore, that I cannot say too much in praise of this medicine.

If you are all this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mistress—I shall want you to be dressed by 3 o'clock, Ellen, to receive my friends that may call.
Ellen—Oh, thank yer, mum! Ain't you going to be in?

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

When a man gets the better of the we are inclined to believe all the mean things we ever heard about him.

Mostly
A woman can't throw a thing straight to save her life.
Oh yes. There's one thing she can throw straight.
What is it?
A cutting remark.

GOOD FOR LITTLE ONES

Baby's Own Tablets are good for all little ones—good for the new-born babe or the growing child. They are absolutely safe and are guaranteed by a government analyst to be free from opiates and other injurious drugs. Concerning them Mrs. Wm. Kernaghan, Cartwright, Man., says: "I have always used Baby's Own Tablets and find them good for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Some people can't worry over big things because they are so busy doing a similar service for the little things.

It is comforting to observe that the crazy people always take a view contrary to our own.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

There's only one thing worse than having to shovel coal, and that is not having any to shovel when the mercury hits the zero mark.

Could Not Digest His Food

Suffered For Years From Indigestion Until Cured by Dr. Chasels Kidney-Liver Pills.

Mr. J. D. S. Barrett.

If you suffer from chronic indigestion, forget about the stomach and pay attention to the condition of the liver and bowels. Ten to one that is where the real trouble lies.

The liver gets sluggish and fails to filter the bile from the blood, the bowels become constipated and the whole digestive system is upset.

As to cure, you cannot do better than to read Mr. Barrett's experience with Dr. Chasels Kidney-Liver Pills. There is no treatment so prompt and thoroughly effective.

Mr. J. D. S. Barrett, Nelson, B. C., and formerly of Twillingate, Nfld., writes:—"For several years I was a great sufferer from indigestion. The least bit of food caused me considerable trouble and often I could scarcely eat a meal a day. The many remedies I tried proved futile until in 1906 I began the use of Dr. Chasels Kidney-Liver Pills, and after using about eight boxes I was completely cured. Since that time I have not been troubled with indigestion, which I consider a great blessing."

Dr. Chasels Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmanston Bates & Co., Limited, Toronto.

It is a poor marksman who considers 1 in the hand worth two in the bush.

To the Electors of the Constituency of Didsbury

I appeal to your support in the coming election on the following grounds:

1. The Government has signally failed to solve the Alberta and Great Waterways question, and the condition of the Province at the present time is as follows:

(a) The Confiscating Act passed by the Government has damaged the credit of the Province with foreign investors.

(b) The Province is at the present time paying interest on the Alberta and Great Waterways money in the banks at the rate of \$1,135.00 per day and will continue to pay at this rate until such time as a solution of the difficulty is arrived at.

(c) There are claims against the Province at the present time in connection with the Alberta and Great Waterways matter amounting to over \$3,000,000.00 which must be settled by the Province. In addition to this the Province has incurred great expense by reason of the law suit with the Royal Bank of Canada. All the above could have been avoided had the Government settled with the Alberta and Great Waterways Company, as was suggested by the Liberal-Conservative party at the time.

2. The public debt of this young Province is at the present time nearly \$40.00 per head as compared with \$10.00 per head in the Province of Ontario.

3. The Temperance legislation of the Sifton Government has been ineffective and troublesome, and caused great expense and difficulty to those supporting the Temperance cause. I pledge myself to support Advanced Temperance legislation irrespective of party politics.

I am receiving support not only from the Liberal-Conservative party, but also from many independent Liberals, and if elected will endeavor to the best of my ability to advance the interests of my constituency.

Yours faithfully,

G. B. SEXSMITH.

Resigned

At a meeting of the Executive of the local Liberal-Conservative Association on Monday night the following resignation of the President of the local Association was read and accepted:

Didsbury, March 3, 1913.
To the Executive of the Liberal-Conservative Association, Didsbury, Alta.

Having been recently appointed to the position of Postmaster, and believing that public servants should refrain from taking an active part in politics, I hereby tender my resignation as President of the local Liberal-Conservative Association.

Yours truly,
WM. HUNSPERGER

Mr. Norman Clark was unanimously elected to the position of President of the local Association.
